Sastry Karra's Astrological Series

Introduction

Mr. Antonin Gregory Scalia was born on 11th March 1936 and died on 13th February 2016.

The Birth details are obtained from:

In this article, I analyzed the chart and provided the astrological reasoning behind this unfortunate event.

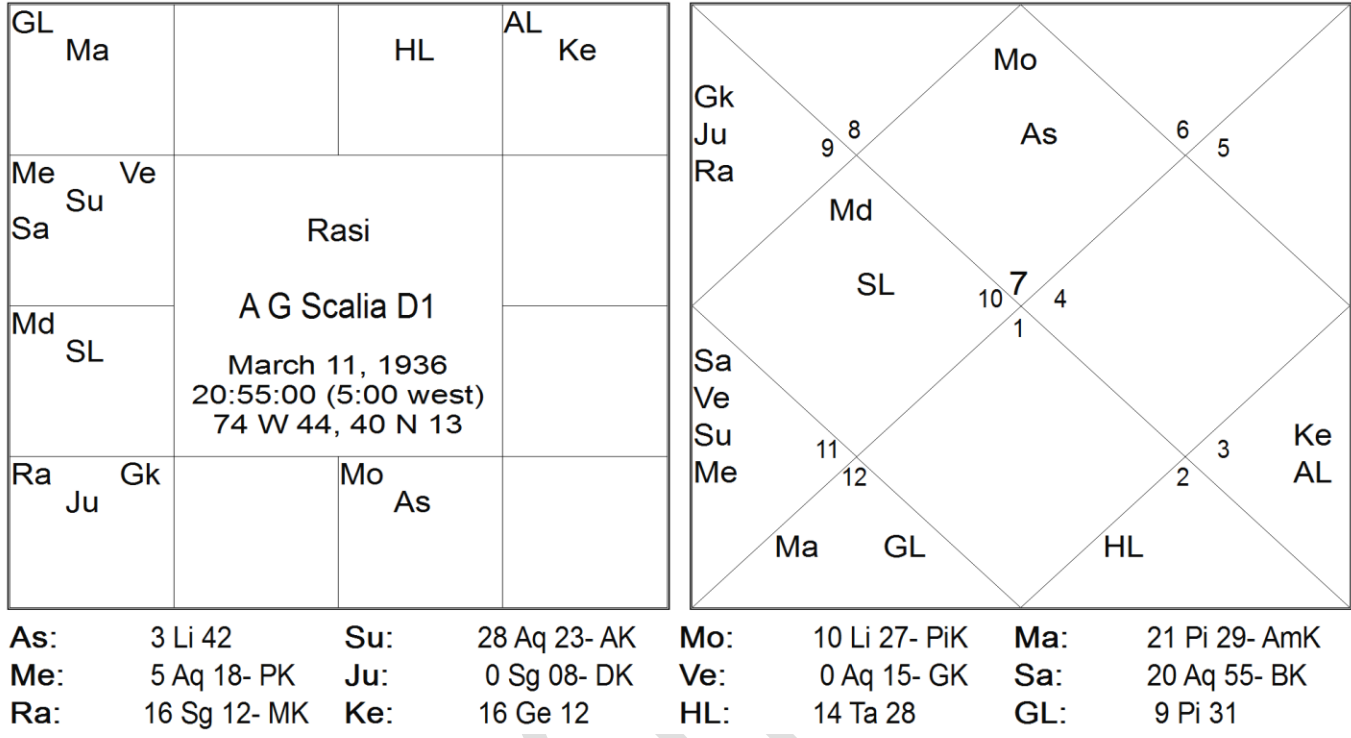

There are a number of astrological reasons to justify the death of a native. Some deaths depicts the importance of core reasons viz. the crucial role of Rahu (Terminator), Saturn (natural Maraka), 8th house lord. This native's death further emphasizes the importance of the above said three planets (both Natal & transit positions).

Please Note that, in my earlier analysis for the death of Sir. Richard Attenborough (Article # 26), the above said three planets also played a vital role.

Please consider this chart for educational purposes only.

Birth Chart:

On his natal chart,

- Mars is lord of 7th (Possible death) house and residing in 6th.
- Venus is lord of 1st and 8th houses is in 5th house, cojoined with Sun (L11), Mercury (L9 & L12), and Saturn (L4 & L5).
- The current Vimsottari dasa is **Venus/Saturn/Rahu**.
- The current Yogini Dasa is **Rahu/Jup/Venus**.
- The current Nirvana Shoola Dasa (death) is **Leo/Scorpio**.

At the time of his death, the important transit planets are:

- *Transit Rahu & Jupiter are in **Leo** (11th house) having a direct aspect on 5th house where Natal Sun, Venus, Mercury & Saturn are residing.*
- *Transit Saturn is in **Scorpio** (H2 – Cause of death) and having a direct aspect on 8th house owned by Venus. Thus, Saturn's impact on Venus got further amplified.*
- *Transit Sun just entered **Aquarius** (5th house) there by touching Natal Sun, Mercury, Venus & Saturn.*
- *Transit Mars is in **Libra** (1st house – owned by Venus) and having a direct aspect on 7th house (owned by Mars again). Thus, Mars too played a role in activating the death of the native.*

Thus, while Venus played a vital role, Saturn (natural Maraka), Rahu (terminator) acted as catalysts and Mars, Jupiter has minimal influence.

Different Dasa Analysis:

In Niryana Shoola dasa, at the time of death, the period was Leo/Scorpio/Sagittarius began on **2016-02-01 and ends on 2016-02-21.**

- Leo being 11th house where transit Rahu & Jupiter are residing and having a direct aspect on both Natal & transit Sun along with Natal Mercury, Venus & Saturn.
- Scorpio is 2nd house owned by Mars where Transit Saturn is residing and having a direct aspect on 8th house (owned by Venus again).
- Sagittarius being 4th house owned by Natal Saturn. Transit Saturn's 3rd aspect is again on Sagittarius too.

Niryana Shoola Dasa (death):

Le MD:	2008-03-12 (7:58:53)	-	2016-03-12 (9:19:08)

Sg PD:	2016-02-01 (16:14:35)	-	2016-02-21 (10:42:03)

In Yogini dasa, at the time of death, the period was Rahu/Jupiter/Venus/Saturn. Based on above explanation, this dasa clearly states **the time of death.**

Yogini Dasa (with planets replacing Yoginis shift of 3 stars):

Rah MD:	2013-03-18 (15:37:50)	-	2021-03-18 (16:43:32)
Jup AD:	2015-08-31 (23:30:25)	-	2016-04-28 (2:40:17)

In Vimsottari dasa, at the time of death, the period was Venus/Rahu/Saturn/Saturn/Saturn . Based on above explanation, this dasa justifies **the time of death**.

Vimsottari Dasa:					
Ven MD:	2008-02-05	(13:49:50)	-	2028-02-05	(16:59:52)
Rah AD:	2015-04-06	(8:50:13)	-	2018-04-06	(3:18:20)
Sat PD:	2016-02-11	(13:17:55)	-	2016-08-05	(6:18:58)
Sat SD:	2016-02-11	(13:17:55)	-	2016-03-09	(11:20:43)
Sat PAD:	2016-02-11	(13:17:55)	-	2016-02-15	(19:03:44)

Analysis based on BCP:

According to Bhrigu Chakra Padathi, between Feb'2015 and Feb'2016, Saturn activates 8th house from Lagna and 8th house from its Natal Position (5th house) – which is 12th house from Lagna.

Saturn being Natural Maraka, activating 8th and 12th house is a direct indication for the possibility of death. To add further, transit Saturn is in Scorpio with a direct aspect on 8th house.

Thus, according to BCP, the native's death is possible between 2015-02 and 2016-02.

Nakshatra Analysis:

In Rashi Chart, Venus became the ONE-AND-ONLY one planet that became the cause for the death of this native.

Planet	House Lordship	Residing House	Residing Nakshatra	Nakshatra Lord
Venus	First & Eighth	Fifth	Dhanishta	Mars
Saturn	Fourth & Fifth	Fifth	Purva Bhadra	Jupiter
Rahu	**none**	Third	Purva Shada	Venus
Jupiter	Third & Sixth	Third	Moola	Ketu
Mars	Seventh	Sixth	Revathi	Mercury

Conclusion

Based on transit “maraka” planets and the two important dasa periods, it is possible to predict the possibility of native’s death.

Please note, the planetary strengths in native’s spouse might alter the results.

Hence, it is advisable to review both wife & husband charts before predicting the possibility of native’s death.
